Election/Restrictions

2. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 3-7, directed to the non-elected species are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

3. Claims 1-9 and 12-17 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Re claims 1-9 and 12, prior arts do not teach or suggest the combination of a wiring harness with a pitch ribbon cable having a plurality of bridge portions with one core wire in between and plurality of notches with a precut portion for defining a position of the wiring harness, wherein one press-contact portion is disposed between two notches so that a part of the bridge portion of each of the notches insulates the one press-contact-portion.

Re claims 13-17, prior arts do not teach or suggest the combination of a wiring harness with a pitch ribbon cable having a plurality of bridge portions with a core wire connected to a respective press-contact portion, and plurality of notches with a precut portion for defining a position of the wiring harness, wherein each press-contact portion is disposed within at least one of the notches so that a part of the bridge portion of each of the notches insulates an adjacent press-contact-portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

5. Applicant's arguments and amendments filed March 5/25/05 have been fully considered and finds the argument along with the amendments to the claim persuasive.
